# The Reality of Aid Project

The Reality of Aid Project exists to promote national and international policies that will contribute to a new and effective strategy for poverty eradication, built on solidarity and equity.

Established in 1993, the Reality of Aid is a collaborative, not-for-profit initiative, involving non-governmental organisations from North and South.

The Reality of Aid publishes regular, reliable reports on international development cooperation and the extent to which governments, North and South, address the extreme inequalities of income and the structural, social and political injustices that entrench people in poverty.

From 1993 to date, the project has published annual *Reality of Aid* reports and more recently, two *Reality Checks* on aid and development cooperation.

These reports provide a critical analysis of how governments address the issues of poverty – and whether aid and development cooperation policies are put into practice.

Several Reality of Aid reports have been published in Spanish. For details of the latest reports in Spanish email Intermon in Spain or email [ALOP](#) in Costa Rica.

Reality of Aid materials and reports have also been published in French, German, Japanese and Vietnamese.

The Reality of Aid Project Management Committee is made up of regional representatives of all participating agencies:

Chair (until end 2001) Elin Enge, Norwegian People's Aid

Vice Chair and Asia: Antonio Tujan, IBON, The Philippines

Treasurer and Europe: Koy Thomson, ACTIONAID, UK

Africa: Zie Gariyo, Uganda Debt Network

Latin America and Chair designate: Mariano Valderrama, La Asociacion Latinoamericana de (ALOP), Costa Rica

OECD (outside Europe): Brian Tomlinson, Canadian Council for International Cooperation (Canada)

Editors: Development Initiatives, Old Westbrook Farm, Evercreech, Somerset, UK BA4 6DS [www.devinit.org](http://www.devinit.org)

Web: [www.realityofaid.org](http://www.realityofaid.org)

# Acknowledgements

The *Reality of Aid* is written by authors from NGOs worldwide whose research draws on knowledge and expertise from aid agencies, academia, community-based organisations and governments. We would like to thank those who have generously contributed their knowledge and advice.

The editors would particularly like to thank the staff at the Statistics Department of the Development Cooperation Directorate of the OECD, and especially Brian Hammond, Simon Scott and Rudolphe Petras, for their help in understanding data on Official Development Assistance. However responsibility for any errors of fact or interpretation lies with the Reality of Aid.

Reality of Aid is funded primarily by the Ford Foundation and the participating NGOs. It is also most grateful to have received support from UNDP and the Danish Ministry of Foreign Affairs.
